

Medical Missionary Movement Liberia Chapter

-LIBERIA

1st TRAINING/ACTIVITIES REPORT

January – August, 2019

Action points

- The name West Africa Medical Missionary Movement chapter (WAMMM) was selected by 25 from the 32 persons in attendance.
- WAMMM is to serve as a regional body to spearhead regional training and decentralization of the Medical Missionary Movement in West Africa.
- Participants voted August 18-24 every year to be WAMMM annual training meeting.
- Sierra Leone will host the 2020 WAMMM training.
- MMML Health Expo at district level for the Five (5) districts of the South-West Liberia Conference of Seventh-day Adventist (Sept-Oct 5).
- MMML Fund Raising program (Oct. 6)
- All African Convention, Sierra Leone (Oct. 15-23)

Introduction

“We have come to a time when every member of the church should take hold of medical missionary work. The world is a lazar house filled with victims of both physical and spiritual disease”. CH 425.1. Everywhere people are perishing for lack of a knowledge of the truths that have been committed to us. The members of the church are in need of an awakening, that they may realize their responsibility to impart these truths. Those who have been enlightened by the truth are to be light-bearers to the world.” RP.1908-09-15.012.

“Medical missionary work is the pioneer work of the gospel, the door through which the truth for this time is to find entrance to many homes. God’s people are to be genuine medical missionaries, for they are to learn to minister to the needs of both soul and body”. CH 497.1.

“When connected with other lines of gospel effort, medical missionary work is a most effective instrument by which the ground is prepared for the sowing of the seeds of truth, and the instrument also by which the harvest is reaped. Medical missionary work is the helping hand of the gospel ministry. So far as possible, it would be well for evangelical workers to learn how to minister to the necessities of the body as well as the soul; for in doing this, they are following the example of Christ.” GH.1908-05-01.001

Medical Missionary Movement Liberia chapter is the gospel Ministry of healing, meeting the needy, and proclaiming Jesus Soon return. With consultation from the Medical Missionary Movement International body and Sierra Leone chapter, the effort of Medical Missionary Movement Liberia chapter begun in 2018. This effort was launched and dedicated August 24, 2019 after a week Medical Missionary Introductory Training facilitated by Sierra Leone chapter. In this activities report, the effort which begun with prayers live on with prayers and faith in Jesus Christ.

The Medical Missionary Movement is a global initiative of the Seventh-day Adventist Church proclaiming the everlasting gospel to all through health and lifestyle reforms that prepares a happy, healthy, and loving Remnant awaiting Christ’s Second Coming. Medical Missionary Movement International is the mother organization based in the USA since 2003, with Elder Jim Ayodo Ayayo as President. It is a self-sponsored, and support arm of the Church. Its members or staff are volunteers, and dedicated men and women who have the passion of service to God, and humanity. It is the gospel mission of healing, blessing, and strengthening. Medical Missionary Movement consists of health ministries leaders, health professionals, lay pastors, ordained elders, and others who desire to see the Lord’s closing work done and to hasten His return.

Mission

Commissioned to proclaim the everlasting gospel to all the world (Rev. 14:6-12; Matt. 10:7-8; 28:18-20), and prepare a happy, healthy, and loving Remnant awaiting Christ's Second Coming.

Goals

Medical Missionary Movement main goal is to advance the cause of gospel medical missionary work in cooperation with duly ordained gospel ministers, in accordance with the prophetic writings of Ellen White (for example, Counsels on Health, pp. 557,558).

MMM Liberia goals

- To awake a population to the gospel of Christ through health reform.
- To make disciples of medical missionaries according to the Bible and the Spirit of Prophecy (Matt. 10:7-8; Acts 3:6; CH 425.1; 497.1).
- To promote health and healing through the use of natural remedies (MH 127.2).
- To promote healthy lifestyle principles in accordance with the Holy Bible and the Spirit of Prophecy
- To prepare a happy, healthy, and loving Remnant awaiting Christ's Second Coming.

12:00PM Commitment service (MMM Liberia)
2:00PM Dedication and certification ceremony (MMM Liberia)
3:00PM Lunch
6:00PM Close of camp and departure

Training daily summary

Day One August 18

Day one of the training was more of adjustment and orientation while we all remained hopeful and prayerful for Elder Mukomango arrival. Registration and general orientation was done. Breakfast was on time, and followed by an inspirational devotion led by MMMSL with Brother Jude Livinus presenting the message. Mrs. Florella Cummings in the next sessions motivated participants on the work of Medical Missionary and a Call for Health reform. Participants had their first lunch without flesh. The eight laws of health (NEWSTART) introduced with Mrs. Cummings, and facilitated by the MMMSL team as Nutrition was highlighted. The day session ended with group presentations, questions and answers, and prayer. At night for the campers, Bible study conducted daily.

**View of day
one training**

Day Two August 19

Day two activities were ushered in with more vigor starting with a morning exercise led by Daniel Conteh, MMMSL. Subsequent sessions continued with the eight laws of health with council on diet and food. As facilitated by Mrs. Cummings and the MMMSL team, group discussions and presentations carried out, with questions and answers as well. The day continued with community visitation and invitation for the health Expo. Reports from the visitation by the three groups sent out were presented. These reports served as the basis for properly planning a health expo in the next session. With health reform in mind, lunch prepared with no flesh, no maggi. Bible study continued at night with Jude Livinus leading.

The joy of being a help. Community visit went well

Early morning moon brightened our mood and day's training as we ended with a Bible study

Day Three August 20

Campers enjoyed regular morning exercise as part of the health reform with the eight laws of health in mind. After breakfast and daily devotion, sessions continued with summary of the eight laws of health in connection with the human anatomy and physiology by Jude Livinus. In this session the eight laws of health was aligned with the proper functioning of the human body and function as participants appreciated God the perfect Designer and Sustainer of mankind. Practical demonstration was included.

Heavy breakfast

View of day three activities

Day Four August 21

Day four had the burden of preparing for health Expo the next day. Natural remedies was highlighted. Water therapy, charcoal therapy, herbal therapy, healing wonders of plants and food were presented. Practical demonstration and field survey in search of herbal plants were inclusive of day four.

Day Five August 22

Exercise of faith was the campers' morning manna on day five. God divine favor and protection was display as participants were forced to intercede for a colleague from 5:00AM to 7:00AM. God intervened and the rest of the day's activities implemented. The much publicized health Expo was conducted with 68 community members benefiting from health advices and healing. During the health expo, 10 stations were set up, starting from registration through to books sale. The health Expo went well with full support from the health ministries department of the South West Liberia Conference of Seventh-day Adventist. NEWSTART materials and other health kits were provided. Participants were challenged and motivated to do more.

View of Health Expo

Day Six August 23

After the devotional activities, a Call to Missionary Work presented by Mrs. Cummings. This call was inspirational and ushered in the planning session.

Agenda

- ✓ Prayer
 - ✓ West Africa Medical Missionary Movement (WAMMM)

**WAMMM
elected officers**

Day Seven August 24

The Seventh day was the Sabbath day. Regular Sabbath Services went well with the Paynesville Central Church Pathfinders and community members in attendance. Pastor Emmanuel F. Zayzay presented key message and challenged all Adventists to keep the mission of the church alive. After which, a Commitment service was conducted by him, and personal commitment form signed by MMML members. Commitment prayer was offered by Pastor Emmanuel G.M. Kollie, President of the Adventist University of West Africa. Immediately after the commitment service, MMM Liberia team met, and action plan drafted and officers selected in preparation of the dedication and certification ceremony.

- Health Screening Equipment (BP, Diabetes, Cholesterol, Pulse Rate, Breathing, BMI)
- Display Tables and Posters
- Printing Equipment for Information Pamphlets
- Kitchen Equipment For Cooking demonstration
- Farm land to grow fruits and vegetables

Conclusion

The introduction and promotion of Medical Missionary work in Liberia is taking root with motivation from successes of preceding programs. The just ended training had built a better team for the proclamation of the gospel through health reform. God hand had been in it throughout. He keeps revealing Himself to each of us each day. He's coming and calling all His children into one fold (John 10:16). We bless God for His daily leading and for making it possible for the MMMSL team to facilitate the training. We also bless God for using all Missionaries around the world in their little way to be an inspiration. We like to note here the full support of the South-West Liberia Conference through her Health Ministries Department. It is also important to note and recognize the meaningful support of the Adventist University of West Africa (AUWA) administration during the entire training period. We also use this medium to recommend more training to be more equipped for the greater task ahead. God bless.
