

# PRODIGIOUS EMPOWERMENT CAMARADERIE IN COLLABORATION WITH THE MEDICAL MISSIONARY MOVEMENT

PRODIGIOUS EMPOWERMENT  
CAMARADERIE

## 'LEH WI TAP SMOK N DRINK' CAMPAIGN (LET US STOP SMOKING TOBACCO AND DRINKING ALCOHOL)

### REPORT 30 DECEMBER 2020

This event that was centered on the education about the harmful effects of drugs was held at the Bishop Crowther memorial hall, on the 30th December 2020. It was held in a very conducive atmosphere. People came from every corner in the community to learn. The targeted population was youths. The community in which the programme was held had seen a rise in use of Alcohol, Marijuana, Cigarette and all sorts of drugs. So, the youth who were gradually being destroyed were the focus. There were about one hundred and fifty (150) people, both youths and elderly who attended the programme.

### PURPOSE

The main reason for this gathering/event was to reach out to the youths and even the old, whose lives were gradually suffering from the ripple effects of Drugs and Alcohol abuse. It aims at

educating the people about the dangers of keeping themselves exposed to such drugs. It also focuses on the dangers of being a secondary participator.

### GOAL

The actual intention is to give the education to people and not only create awareness among them but to also help them quit these addictions. The central idea was about creating change in the lives of the people, especially the youths, thus reducing death rates, illnesses and crimes.

### STAKEHOLDERS PRESENT

This beautiful programme held at the Bishop Crowther hall was graced by great and mighty men of honour. Men of higher caliber in society. Gracing this occasion was the Councilor of the Cline town community, Councillor Hoodie Munu, Our noble chief Ya' Alimamy Thoronka and other community representatives.

The programme started at 2:00 pm. It started with prayers from the Imam in the community, Mr. Fidel kamara and a Christian prayer was said by Mr. Anthony Roberts, a Lay Reader. Furthermore, there were statements from MMMSL and PEC as to assert the essence of the programme. After several introduction of dignitaries, the presentation rolled on. The first presentation was done by Mr Samuel Sawyerr who talked on the dangers of Alcohol on the human body, the community and the world at large. Second to him was

Mr Andrew Chokpeleh who talked on the dangers of Smoking and its ripple effects on the blood, lungs and the atmosphere. Third was Mr Fredrick Schelenker, who talked on the effects of cola and Caffeine. Last, was Mr kabba Turay (The President of PEC). He talked about medicinal drugs and how it can negatively impact the body if misused. All four of the presentation were educative and well received and understood by the Audience. However, the programme came to an end as several questions was asked about the audience's understanding of the message and a closing prayer was said and everything was crowned by a nice time of interaction with food and drink. Everyone was happy and that was how the programme was ordered. Everyone appreciated both the message and the food.

However, we took all the names, and numbers of all those that attended the programme and we hope to be checking on them from time to time, and give them more advice as we have done, and in relation to that the chief ya' Alimamy Thoronka want the same programme in her own community, which is the culvert ya Bundu community.so that we can see how to avoid these dangers presented by such drugs.

We wish to express our appreciation of the help of donors who through MMMSL funded this programme

**Name of 21 of those who want to stop the act of taking drugs**
